halilidrijon@gmail.com

drijon.com (my portfolio)

Front-End Developer who aims to deliver high-quality products. Passionate about my work, I adapt easily to new technologies, communicate efficiently with team members, and consistently ensure projects are completed to the highest standards.

Work experience

StarLabs | Full-Stack Developer Intern

Pristina, Kosovo | 04.2022 - 07.2022

- Collaborated with a 5-person website development team to create a professional WordPress theme project.
- Responsible for most of the front-end work and design of the website.
- Creating the posts logic using Advanced Custom Fields plugin.
- Ensured the site to run smoothly and fast.

Digital School | Programming Instructor Intern

Ferizaj, Kosovo | 02.2023 – 03-2023

- Teaching programming concepts while trying to make the learning process as interactive as possible.
- Collaborating with staff to improve our teaching and make it more efficient.
- Promoted to Programming Instructor

Digital School | Programming Instructor

Ferizaj, Kosovo | 11.2023 – current

A&O Hostels | Front-End Developer

Berlin, Germany | 11.2022 - current

- Bringing mock-up designs into life using front-end technologies.
- Re-developing old pages with a fresh modern look.
- Resolving issues for different tools, including back-end.

Education

AAB College | Bachelor's Degree

Ferizaj, Kosovo | 01.2022 – current

Studying Computer Science and Software Engineering

Digital School | Course Completion

Ferizaj, Kosovo | 01.2019 - 01.2022

Started learning programming and computer science from the age of 13 and completed the entire course after 5 years.

Besides learning new technologies, developing websites and applications, I've also participated in programming competitions where I got my chance to present my projects.

- Participant in Albania ICT – 2019
- Participant in KOS ICT – 2020
- Top 3 in Digital School Houses – 2020
- November Code Fest Semi-Finalist – 2021

After completing the entire course, I was offered a position as a Programming Instructor at Digital School, the same school where I was once a student.

Technologies

HTML | CSS (SCSS, SASS, Bootstrap, Tailwind) | JavaScript (jQuery, json, React Native, VueJs) | PHP (Laravel) | MySQL | Java (JavaFX, Scene Builder) | WordPress (Theme Development, Advanced Custom Fields)
